### Discussion Questions For “What’s the Message?” Lessons

#### Lesson 25

##### Questions

The people of Israel are now literally “between a rock and a hard place”. On the one hand is the rock of the most powerful army of its day, while on the other is a body of water that blocks them because they have no conventional way to cross it. Why did Moses, following the orders of Yahweh, put them in this position?

Did they have a lesson that they needed to learn? If so, what was it? Was it an important lesson?

Was there a lesson for the Egyptians to learn? If so, what was it?

Is this also a lesson that we need to learn? Over and over again? So does the story apply to us also? Is it still relevant?
